PROFESSIONAL SUMMARY

I'm a BSc IT graduate with a passion for turning ideas into useful digital solutions. I have practical experience in full-stack development and enjoy building apps that are easy to use and work well. I like finding smart solutions and making sure everything looks and works just right. My goal is to become a skilled Full-Stack Developer and build applications that make a real difference.

SKILLS

Programming Languages: Javascript, Typescript, Java

Framework/Library: React.js, Next.js, Tailwind CSS, Node.js, Express.js

Database: PostgreSQL, MongoDB Tools: Git, GitHub, Postman

EDUCATION

Bachelor of Science in Information Technology

Tolani College of Commerce

JULY 2022 - MARCH 2025

CGPA: 8.7

Higher Secondary Education (Class XII)

Tolani College of Commerce

MAY 2021 - MARCH 2022

81%

PROJECTS

1) WorkPlace

- Built a freelancing platform inspired by Fiverr, enabling users to create profiles, post services, and manage bookings seamlessly.
- Integrated Socket.IO for real-time communication and Next.js for server-side rendering, ensuring a smooth and scalable user experience
- Strengthened expertise in dynamic RESTful API development, database management using Prisma, and responsive UI/UX design patterns.
- **Technologies**: Next.js, Javascript, PostgreSQL, Prisma.
- Github link

2) AI SaaS Platform for Web App Creation

- Developed an AI-driven SaaS platform enabling users to generate, customize web applications using natural language prompts. Integrated Gemini API for Al-powered automation, leveraging Next.js for server-side rendering, Tailwind CSS for modern UI/UX, and Convex for real-time database management.
- **Technologies:** Next.js, Gemini API, Tailwind CSS, Convex.
- Github Link | Live Demo

3) Netflix Clone

- Developed a video streaming platform inspired by Netflix, allowing users to browse, watch, and manage personalized content.
- Implemented secure user authentication and data storage using JWT and MongoDB.
- Enhanced proficiency in UI/UX design patterns, RESTful API integration, and efficient state management with Redux, delivering a seamless user experience.
- **Technologies**: React.js, Node.js, Express.js, MongoDB
- Github link | Live Demo

CERTIFICATIONS

1) Advanced Program in Web Designing

- Organization: Anudip Foundation (Supported by Accenture)
- **Skills Learned**: Responsive web design, JavaScript, UI/UX principles, and design tools.
